# APPLICATION ENGINEERING SERVICES

World-class solutions to give you the Edge!

*Rite Pros are constantly looking for ways to gain an edge over the competition. They know that in a highly complex business world, competitive edge comes by taking the fullest advantage of domain expertise and the latest in technology alternatives.*

Streamlined processes and well-coordinated workflow, combined with Rite Pros's robust Global Delivery Capabilities and cutting edge solutions are underpinnings to such vigilance.

## Benefits of Cutting Edge Technologies Delivered

Rite Pros delivers the edge to its customers by helping them leverage the benefits of the latest in Information Technology. These technologies are changing the way applications are developed and the way they are aligned with business strategies and goals.

Rite Pros's proven procedures and qualified professionals maximize the value delivered through robust and agile applications while fully taking the advantage of the latest in technologies. At the same time, our offshore delivery centers in India, together with the flexible delivery models, help our customers realize the genuine advantages of outsourcing.

While customers concentrate on vital business activities, Rite Pros analyzes and details to produce high-end solutions. Our solutions are built with cost efficiencies using hybrid methodologies, ensuring quick and effective ROI for the customer.

## Rite Pros: Competency through People and Technology

With more than a decade of global software development and maintenance experience, the Rite Pros technical team is adept at diverse technologies and development platforms.

The overall quality of our solutions multiplies manifold as Rite Pros draws from a large reservoir of skills and rich experience. The Rite Pros team helps improve and innovate customer business processes transforming the promise into reality.

## Rite Pros established the Competency Center for Application Development and Maintenance in order to:

- Collate the collective experience of various project implementations and maintenance projects.
- Centralize the domain, technical and project management exposure from each project.
- Research and Develop the optimum in design and execution for newly acquired projects to suit the customer, his domain and the level of investment.
- Suggest alternatives on how best to maximize the technical partnerships that Rite Pros has built and sustained over time.
- Tailor-make the solution according to the immediate and long term plans of the customer.
- Suggest continuous process improvements in project management, client coordination, and release and delivery mechanisms.

## Rite Pros Offerings: A Range of Application Development and Maintenance Services

Rite Pros's range of application development and maintenance services comes with the potency of its technology partnerships and its Competency Center. Technology partnerships enhance the way Rite Pros delivers value to its customers. Our strategic technical alliances with **Microsoft, Oracle, IBM, Mercury, Business Objects and Macromedia** provide the strength to our technical competency for Application Development and Maintenance. Our Competency Center for Application Development and Maintenance ensure that we research and develop only the most flexible, scalable and cost-effective solutions for your business needs.

## RitePros' Staffing Services

Our leadership team has extensive experience delivering diversified recruitment needs starting from basic IT staff augmentation to contractual, contract to hire and direct hire needs as well. We are a first choice for multiple organizations managing various IT projects of all types and sizes – application, infrastructure, and business etc. We provide customized IT and staffing solutions to each and every customer based on their needs and requirements with the best and appropriate talent hunt.

# Innovation through technology Leadership through excellence...

We make sure that the IT staffing problems, which our team works on must give rise to innovative solutions that create lasting business value for our client, This implies a high level of flexibility and interaction with clients as the team works together to develop such innovative solutions. We understands that the future of technology will be a more challenging business so we are always in an ongoing process of augmenting the shine of our most precious asset:

## “Our People”

The foundation of our success rests in our people and their understanding of our customers' complex staffing requirements.

Understanding the requirement of a customer facing the unique issues is the most important step towards higher-end IT staffing services.

### RitePros' Approach:

Working on complex IT staffing issues requires a unique problem solving approach. RitePros' approach is to work hand-in-hand with clients to frame their staffing requirement, understand the skill-mix required, align our executive search capabilities with your exact need and providing with highly skilled, uniquely matching resource-line to best suit your requirement. This approach requires the right mix of people, process and technology and this mix comprise the major component of our organizational system.

### RitePros' Approach to your IT staffing issues

- **Staffing Requisition:** Our sales personnel work in alliance with the Client's HR Team and receives the requisition.

- **Definition:** Sales personnel understand the exact skills required and provide a detailed definition of the requirement to executive search specialists.
- **Sourcing:** Executive search specialists discuss the requirement with sales personnel if required and explore the database of available candidates as well as candidates available in the market. Candidates are searched within 0-12 hours time frame.
- **Screening:** Resource search specialist interview the candidates for preliminary screening
- **Submission:** Sales personnel submit the candidates who best suit the requirement and request interview schedule.
- **Client Reviews Candidates:** Client reviews the candidates, schedule the interview and interviews the candidates, client makes Hire/Decline decision.
- **Acceptance:** Hiring manager start the process to bring hired candidate on-board.
- **Invoice submission:** Invoices are compiled as per the time frame approved in contract. All contractors are strictly required to submit time sheets and expense statements on time.
- **Project completion/extension:** Executive search specialist contacts the candidate one-month before the completion of the project.

Our pride in our team lies in their capabilities to assist you in achieving your organizational objectives. We have a very strong team of Executive search specialists with proven track record who have vast experience in understanding the client's IT staffing requirements and finding the right-fit candidates. Our team members specialize in easing the process of filling up the vacuum between your rapidly growing demand and low availability of dexterous manpower.

## About Us

RitePros Inc. is headquartered in Maine and has over 5 years of experience in providing End to End IT Solutions. The company started its operations in 2004 with a focus on providing consulting services to meet the requirements of established business organizations.

Since then we have not looked back with our consulting services growing in size and incorporating the newer trends in the Information Technology Industry, in turn progressing to Software Development for our clients. Based on our client relations we are exposed to profitable opportunities where we can work on various projects across Industries, from small PC based applications, to Multi-user LAN based applications designed on RDBMS platforms, to complex Client Server applications spanned over Wide-Area Networks, to e-commerce Internet applications and SAP ERP Solutions.

RitePros Inc. plans to utilize the skill sets of our diverse IT professionals to meet resource demands for these projects, resulting in expansion, business development and acquisition of new projects.
